CNC Operator

Job Purpose

This position serves as a machine operator in our manufacturing facility. The position is responsible for manufacturing carbide tools and parts under the supervision of the Plant Manager or the Shift Supervisor. The focus of this position is to provide finished tools by programming, editing, loading and monitoring our 5 Axis CNC Grinding machines.

Responsibilities

- Operate CNC Grinding machines to shape carbide parts to specifications in tooling prints using drawings, existing programs and verbal instructions.
- Pull stock before the job has been set up and verify material is correct to the traveler requirement.
- Verify that any documents pertaining to the work order necessary for production are in the packet.
- Gather all necessary tooling, fixtures, and materials needed for the job per traveler requirement.
- Verify the equipment has been set up in a safe and operational manner.
- Understand how to read production drawings, product requirements on the traveler, and know where critical characteristics are.
- Able to check parts using micrometers and calipers.
- Able to record measurements taken using micrometers and calipers.
- Able to deburr parts while machine is running.
- Monitor the operation of machine to assure the machine is operating safely and is producing a quality part.
- Can adjust the machines according to dimensional non-conformity.
- Report any machine malfunction or safety condition.
- Maintain work area (housekeeping).
- Other tasks as directed by management.

Qualifications

- The ability work closely with others in a team orientated work environment.
- Must be able to verbally communicate, read and comprehend written and verbal instructions, detailed drawings and documents, and be capable of doing basic mathematical calculations.
- Able to work in a loud environment.
- Able to work extended hours as required.
- Experience operating five axis CNC Grinding machines required (preferred)
- 2 to 5 years' experience operating Walters & Rolomatic 5 Axis CNC Grinding machines (preferred but not required)
